

 SKINCEUTICALS

RETEXTURING ACTIVATOR

STATE-OF-THE-ART SKIN RESURFACING
FOR ALL SKIN TYPES

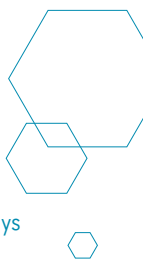

TWO POLAR MECHANISMS HARNESSSED FOR OPTIMIZED RESULTS

EXFOLIATION ————— HYDRATION

**SURPASSES THE RESULTS
OF A 20% GLYCOLIC
DAILY-USE TREATMENT**

RETEXTURING ACTIVATOR

As skin ages, cell turnover slows from 28 days to 45 days leaving dull rough, unhealthy-looking skin.

RESULTS

Immediately skin feels smoother, softer, and more radiant

As revealed in an 8-week controlled clinical study, twice daily use of Retexturing Activator significantly improved surface lines and reduced the appearance of pore size for visibly smoother, more radiant skin vs. a 20% glycolic daily-use treatment.

ACTIVE INGREDIENTS

Resurface while reinforcing the skin's barrier

TWO POLAR MECHANISMS

EXFOLIATION

HYDRATION

25% HYDROXYETHYL UREA/AMINOSULFONIC ACID COMPOUND

- Promotes cell differentiation, normalizes epidermal renewal, and encourages new cell migration to the skin's surface
- Replenishes moisture levels and reinforces skin's barrier

KOMBUCHKA

Smooths skin, improves radiance and skin tone

HYALURONIC ACID

Provides a non-irritating, hydrating base

RETEXTURING ACTIVATOR BENEFITS

- Diminishes surface lines and wrinkles
- Smooths coarse skin texture
- Improves clogged pores and uneven skin tone
